Experience

Evenflow Brands

June 2026 – Ongoing

AI Solutions Architect

- Architecting and building core **tech infrastructure from scratch** for a high-growth **B2B** company, owning **system architecture**, **database design**, and business logic end-to-end across **Ops, Finance, Marketing, and Sourcing** domains.
- Solving a new operational problem statement on a near-daily basis by independently scoping, designing, and shipping production-grade **AI** systems for **price intelligence**, **debit note validation**, **catalog monitoring**, and **workflow orchestration**.
- Engineered scalable **web scraping** pipelines, robust **backend APIs**, and centralized data systems to reduce repetitive manual workloads across procurement and finance operations.

Ascent AI Solutions (GR2 Engineering)

April 2026 – May 2026

Backend Engineer (Project-Based)

- Built production-grade **FastAPI** backend frameworks for a specialized client engagement.
- Designed and implemented secure **Entra ID** authentication flows, **RBAC** enforcement policies, and **PostgreSQL** schemas with migration pipelines.
- Developed gateway-based **microservice** orchestrations, admin **APIs**, centralized logging structures, and secured **AWS** deployments for permission-gated access across core text tools and navigation chatbots.

The Machine Learning Company

September 2025 – February 2026

AI Engineer Intern

- Built and productionized enterprise-ready **RAG** chatbots, **multi-agent** orchestrations, and autonomous **tool-use agents**.
- Trained, fine-tuned, and deployed customized **YOLOv8**-based **CNN** models, handling full workflows from data preprocessing to optimized production **inference**.
- Owned end-to-end engineering lifecycles while balancing target **precision** metrics against **computational latency**.

Freelance Projects

AI-Powered Invoice Extraction & Document Intelligence System | *OCR, LLM, Python*

- Built an independent **OCR/LLM**-based intelligence layer for automated **invoice extraction** and document data capture for a client, converting unstructured documents into structured, validated data and reducing manual data-entry effort.

Projects

gitEQ — AI-Powered Repository Documentation | *FastAPI, LangGraph, Gemini, Tree-sitter, Vercel*

- Designed an end-to-end system executing deep architectural code analysis using **Tree-sitter** parsing and **multi-agent** systems orchestrated via **LangGraph** workflows.
- Built a fully async backend (**HTTPX**, **AIOHTTP**, **Pydantic**) providing structural code graph visualization and automated documentation updates over **REST APIs**.
- Implemented smart structural context selection, secure custom **API key** mapping, and complete multi-host deployments on **Render** and **Vercel**.

Market Research Copilot — AI Competitive Intelligence | *Streamlit, LangGraph, SerpAPI, Pydantic*

- Engineered a multi-stage **LangGraph** planner-executor pipeline transforming market research criteria into data-driven **SWOT** reviews and positioning intelligence charts.
- Created an asynchronous system handling structured **web scraping** via **Trafilatura** paired with dynamic programmatic extractions through **SerpAPI** integrations.
- Constructed custom data verification components via **Pydantic** to render execution tracking data directly onto **Streamlit** dashboards.

Technical Skills

- Programming Languages:** Python (TensorFlow, PyTorch, Keras, Scikit-learn), SQL, JavaScript, TypeScript, Bash
- AI/ML & Generative AI:** Deep Learning, NLP, CNN, YOLOv8, Diffusion Models, Transformers, LLMs, RAG Pipelines, LangChain, LangGraph
- Backend & DevOps:** FastAPI, AWS, Azure, Docker, Git, GitHub Actions, CI/CD, Render, Vercel
- Databases & Platforms:** PostgreSQL, MySQL, MongoDB, Firebase, ChromaDB, Pinecone, Vector Databases
- Tools & Analytics:** Tableau, Jupyter/Kaggle Notebooks, Google Colab, Figma, Canva, PowerBI

Education

Vivekanand Education Society Institute of Technology (VESIT)

2022 – 2026

Bachelor of Technology in Electronics & Computer Science

Mumbai, India

- Academic Performance:** Cumulative Grade Point Average of 8.51 / 10.00
